SKILLS

Programming Languages: HTML, CSS, JS, TS, Rust

Database Management: JSON, DenoKV

Version Control: Git, GitHub

API Development: REST, GraphQL

EDUCATION

B.Tech IT (2020-2024)

Silver Oak University (Ahmedabad)
Cumulative GPA: 8.82/10

SSC (2018) / HSC (2020)

SVP M&UMV (Gondal)

LANGUAGES

Gujarati

Hindi

English

PROFILE

I possess One and Half years of experience in web development with a focus on JavaScript and modern web development practices. My experience includes building enterprise-grade web applications utilizing various UI components built with web components for reusability and maintainability. I'm also familiar with Progressive Web App (PWA) development, leveraging Service Workers for offline functionality and push notifications to enhance user engagement. My experience encompasses API integrations, implementing functionalities like front-end rendering, user routing, and authentication.

WORK EXPERIENCE

Intern- Frontend Developer

Staytuned LLP (Formerly Codecycle)   2022-2024

- Collaborated with cross-functional teams (designers, backend developers, etc.)
- Transformed design concepts into responsive, visually appealing PWAs
- Ensured seamless integration of frontend elements with backend services
- Integrated frontend interfaces with backend APIs for smooth interactions within PWAs
- Maintained high code quality through unit testing, code reviews, and Playwright automation
- Debugged complex code issues effectively
- Utilized Git and GitHub for version control

PROJECT

- **Design System**
  - **Description:** In this project, I developed a comprehensive design system to standardize UI components and improve consistency and efficiency in web development.
  - **Technologies Used:**
    - **Front-end:** HTML, CSS, JS
      - **Additional:** Web Components
- **VSCode Extension**
  - **Description:** This project involved creating a VSCode extension to enhance developer productivity by providing additional tools and functionalities directly within the code editor.
  - **Technologies Used:**
    - **Front-end:** HTML, CSS, JS, TS
    - **Back-end:** Node.js (JS, TS)
    - **Package Manager:** npm
  - **Key Contributions:**
    - Developed custom VS Code extensions to streamline development workflows
- **Web Stories**
  - **Description:** For this project, I built a platform for creating and sharing web stories, focusing on dynamic content presentation and user engagement.
  - **Technologies Used:**
    - **Front-end:** HTML, CSS, JS
